

Outstanding of the services as for our "Homeland Security Acts Law is one of the equals to America Disabilities Acts Law, too!"

May I make recommend to amend on 10 Commandments to 12 Commandments, I think all Judges, Federal Level ought to be agree to put the display tombstone on the government property if we would agree to make amend,

11. Thou shall be no discrimination under ADA

12. Thou shall be having 12 Steps Programs

I am hoping all World Religions would give an approval to make 2 amends on 10 Commandments before all judges's approval to put the display on the government property and encourage to all in the world so that they may learn something new and could be very helpful to understand our "Hand of the Cause of God/Zon"...

I have the letters that I wrote to Congressman, Mike Mc Intrye last 1997 and I would like to have your fax number so I want to show them to you and you see they had been avoiding to my lawsuit. They owed me \$12 million dollars from State of the North Carolina. At that time, Mike Easley was on General Attorney for NC Jim Hunt's term. I want you to reread my letters once one more time and I want to tell you about my story between since last 1997-2000 and still in the presenttime till we get to be made with the settlements. I want all deaf and hard hearing people to be heard about my cases. I hope to hear from you asap!

Thank you so much for the outstanding service and keep it up!

Thelbert Ray Ivey, Sr.
